

## Match Report

In their final league game of an amazing two year period, the Under 8 elite team did not disappoint.

As we have been accustomed too, the player's individual ability to attack 1 vs 1, in addition to their ability to combine and release the ball at the correct time makes them unstoppable in possession.

The theme for the day was to make accurate decisions, share the football, and entertain the crowd. All of which were achieved throughout the game.

Ball striking of the highest level was evident, as Henry and Harrison had a private competition as to who could break the top corner!

On top of that, Henry showed a great attitude to assist his team mates throughout the game.

Harrison was the enforcer, controlling the play from the back and dominating his defensive duties.

Elliot showed great learning, as he started to scan more when running with the ball, this enabled him to turn "provider" and create a number of clear-cut chances.

Liam was in a more advanced role than usual, he thrived showcasing a variety of beat a man moves to then release forwards. The use of his sole when dribbling was a particular highlight.

Presley was the finisher, seeing great spaces and positions to occupy to score a number of goals throughout the day. As always, he showed off his ability to dribble in tight areas.
